LaHarpe, Kansas

Notes to Financial Statements For the Years Ended December 31, 2016 and 2015

1. NATURE OF ACTIVITIES

LaHarpe Telephone Company, Inc., (an S-corporation), was incorporated January 1, 1963, under the laws of the State of Kansas to engage in the operation of providing telephone service. The Company has been entirely owned by the Lee family since its inception.

2. SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the amounts reported. These estimates are based on historical experience and information that is available to management about current events and actions the Company may take in the future. Significant items subject to estimates and assumptions include the carrying value of long-lived assets, valuation allowances for receivables, inventories, legal and environmental liabilities, workers compensation, and assets and obligations related to employee benefit plans. There can be no assurance that actual results will not differ from these estimates.

Cash and Cash Equivalents

For purposes of the statements of cash flows, the Company considers cash and cash equivalents to include cash, savings accounts, and certificates of deposit purchased with an original maturity of three months or less.

Concentration of Credit Risk

The Company maintains its deposits in institutions which it believes to be of high integrity and financial stability.

Inventory

Inventory consists of supplies used in the repair of existing services and the establishment of new services. Inventory is stated at cost using the First-in, First-Out, (FIFO), basis of inventory. Obsolete materials are written off and scrapped when they are considered no longer usable.

Property, Plant, and Equipment, Net

It is the Company's policy to capitalize property, plant, and equipment with a useful life of more than one year and a value over \$500.00. Property, plant, and equipment are stated at cost. Depreciation is provided on the straight-line method over the estimated useful lives of the respective classes of property as prescribed by the Rural Utilities Service, a part of the USDA.

Vehicles and Work Equipment Central Office Equipment Outside Plant Furniture and Office Equipment Office Building

2. **SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES** (Continued)

Property, Plant, and Equipment, Net (Continued)

Expenditures for maintenance and repairs, which do not extend the life of the applicable assets, are charged to expense as incurred. When properties are disposed of, the related cost and accumulated depreciation are removed from the accounts and profit or loss upon disposition is reflected in operations.

Allowance for Doubtful Accounts

Accounts receivable is presented in the balance sheet net of estimated uncollectible amounts. The Company maintains an allowance for doubtful accounts as a reserve for the loss that would be incurred if a customer is unable to pay amounts due to the Company. The Company determines this based on various factors, including the customer's financial condition. Individual uncollectible accounts are written off against the allowance when collection of the individual accounts appears doubtful.

Revenue and Expense Recognition

The Company's revenue is derived primarily from the sale of local and long distance telephone service to the City of LaHarpe, Kansas and the immediately surrounding rural area. The Company uses the accrual basis of accounting for all revenues and expenses.

Advertising Costs

The Company expenses advertising costs when incurred.

Income Tax Status

The Company, with the consent of its shareholders, has elected under the Internal Revenue Code to be taxed as an S corporation. The shareholders of an S corporation are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for federal income taxes has been included in the financial statements for the years ended December 31, 2016 and 2015.

3. **INVENTORY**

Inventory at December 31, 2016 and 2015 consists of the following:

Materials and Supplies Nonregulated Materials and Supplies Total Inventory

4. ACCOUNTS RECEIVABLE, NET

Accounts receivable consists primarily of unsecured trade accounts receivables. Accounts receivable of at December 31, 2016 and 2015 represent amounts due to the Company in the normal course of doing business. 5. INVESTMENTS

6. FAIR VALUE MEASUREMENTS

The Company's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

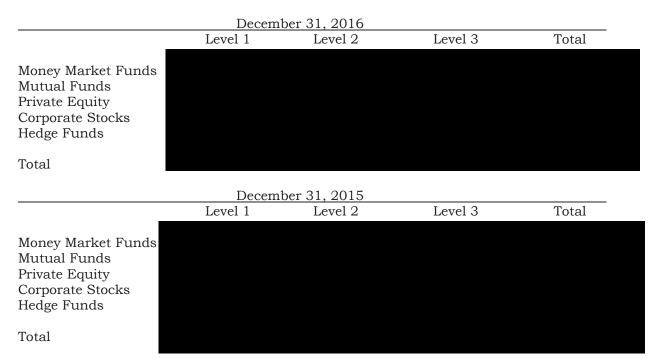

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2016 and 2015 (Level 1, 2 and 3 inputs are defined below):

Level 1. Observable inputs such as quoted prices in active markets;

Level 2. Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and

Level 3. Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions that market participants might reasonable use in valuing the investment.

6. FAIR VALUE MEASUREMENTS (Continued)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Private Equity: Valued by the outside independent third party of Morgan Stanley and is estimated at original commitment in accordance with the original partnership agreement, less contributions to date and distributions and also include an estimate for redemption proceeds pending fund valuations inclusive of activity. The redemption proceeds withheld by the issuer pending final valuations which are not subject to investment performance of the fund.
